

Personal Robot

Variable Speed Joy Stick Control
of Pan/Tilt/Zoom Systems

Universal Controller - Personal Computer Version

- 3 - Axis Adjustable Speed Joystick
- 16 Key Multifunction Keypad
- Focus / Iris Paddle Switches
- USB 2.0 Computer Interface
- Plug and Play Compatible with most Window's Operating Systems
- Supports "**Personal Robot**" System Software
- Can Control both Analog and IP Based Cameras

Supports Plug & Play as a Three Axis Game Controller on Windows

Simply plug it into an unused USB Port, on your Windows XP Computer, and it's ready to run. Select **Start/Settings/Control Panel/Game Controllers**, then Select **Personal Robot Universal Controller** to **Test and Calibrate** the unit. Fully functional with all **Personal Robot** System Software. May be used to control Analog and IP Based Cameras, both **Fixed**, and **Pan / Tilt / Zoom** models, that support the **Pelco "P" Protocol**.

Continuously Variable Three - Axis Joy Stick

Full speed control on both the **Pan and Tilt Axis** with the added bonus of an **Adjustable Zoom Controller** sitting atop the **Joystick Handle**. Bi - Directional **Paddle Switches** control the **Focus and Iris** manually, when they are not in **Automatic Mode**.

16 Key Multifunction Keypad

The "tactile feel" **16 Key Keypad** allows for **Camera Switching** and other **System Related Functions**
